IT & Customer Service Professional

PROFESSIONAL SUMMARY

Versatile IT and customer service professional with 7+ years across technical support, POS systems, and data handling, with a proven habit of building tools that improve efficiency.

CORE SKILLS

- **Technical Support:** Remote & on-site troubleshooting, network diagnostics (Windows/Linux), hardware configuration, system diagnostics, customer support
- **POS Systems:** Shift4 (SkyTab, RMPOS, Micros, PixelPoint, Duet), TOAST, SQUARE, Digital Dining; pinpads, printers, KDS
- **Data & Documentation:** Data entry, technical documentation, knowledge bases (ITGlue, ITBoost), ticketing (Zendesk), reporting, record keeping
- **Tools & Software:** Microsoft Office, Google Workspace, Windows, Linux, Pipedrive, Zendesk
- **Development:** Java, Python, shell scripting, HTML/CSS/JavaScript, REST APIs, SQL, automation

EXPERIENCE

POS Programmer — Shift4 (acquired Simple POS), Harrisburg, PA

04/2024 – 09/2025

- Programmed and configured SkyTab POS systems, custom-building tailored solutions and training clients for independent use.
- Worked directly with clients, translating their needs into dependable, fit-for-workflow configurations.

Senior Technician — Pure Technology / Simple POS, Harrisburg, PA

11/2022 – 04/2024

- Delivered client support, tailoring POS configurations to each business and training clients to use their systems independently.
- Built automation tools and a Pipedrive–Zendesk integration that removed manual and duplicate work; recognized with a promotion.
- Documented installations, configurations, and troubleshooting procedures for systems management.

Owner & Bartender — Witz End Pub / Rosie's Tavola, Mount Joy, PA

2015 – 2022

- Progressed from bartender to owner, managing operations, staffing, inventory, POS data, and financial reviews.

Founder / Developer — HAVOC Network, Remote

07/2012 – 06/2015

- Founded a community network linking 4+ game servers via Java plugins (forum, IRC, VOIP); managed website and community operations.

Remote Service Technician — SDC, Harrisburg, PA

09/2011 – 11/2014

- Provided phone/remote support to business clients (Comcast, Spectrum), documenting actions and resolving network issues (Linux/Windows).

PROJECTS

- Built original tools showcased at killahtomato.github.io: Tomato Play (streaming CLI), Tomato Media Ripper (download GUI), ZZZ Codes.

EDUCATION & CERTIFICATIONS

HACC, Information Security Certification (in progress); CompTIA Security+ (in progress); CASP+ (in progress)
